

Turmeric 500 mg

Curcumin C3 Complex® from turmeric and Bioperine® from black pepper

PRODUCT DESCRIPTION

Plant extracts of turmeric

Curcuma - A traditional extract in the focus of science

Turmeric (*Curcuma longa*) is a traditional ingredient in various spice blends. Curcumin is extracted from the roots of the turmeric plant and standardized to the curcuminoids contained in the root for use as a dietary supplement. Curcuma longa has a long tradition in India and China and is no longer unknown in Europe. The spice with its sunny yellow color found its way to Europe in the late Middle Ages via the Silk Road, which led from China via India and Central Asia to the Mediterranean.

Biogena Curcuma 500: With standardized Curcumin C3 Complex® and BioPerine®

Biogena Curcuma 500 is a combination preparation containing 500 mg of the standardized and clinically tested special extract Curcumin C3 Complex® and black pepper extract (BioPerine®). With Curcuma 500, we bring the exoticism and tradition of this golden root directly into your everyday life.

- Curcumin C3 Complex®: clinically tested & patented
- Natural curcuma longa extract with piperine
