

BIOGENA

ESSENTIALS

GABA 500

Single product with the endogenous amino acid GABA in concentrated form for targeted intake

PRODUCT DESCRIPTION

Gamma-aminobutyric acid

Neurotransmitters – important messengers in the nervous system

Our brain alone has 100 billion nerve cells that are permanently communicating with one another. The signal transmission deals with electrical impulses on the one hand, and messengers, so-called neurotransmitters on the other. In 1921, Austrian researcher Otto Loewi discovered the first neurotransmitter known as acetylcholine. Today, science knows many neurotransmitters and is aware of their importance for the transmission of information from cell to cell. Examples of important neurotransmitters are acetylcholine and glutamate. The latter can be converted into the neurotransmitter GABA (gamma-aminobutyric acid) in the body through enzymatic processes. GABA became particularly important in the 1980s as a result of the research carried out by the German professor Dr Hanns Möhler, whereby it is still the focus of science today. Biogena GABA 500 contains gamma-aminobutyric acid in physiological doses and thus makes possible the additional intake in the form a high-quality micronutrient preparation.

GABA 500

- Contains GABA (gamma-aminobutyric acid) in physiological doses
- Dose suitable for the body: 500 mg / capsule
- GABA = messenger substance in the body for signal transmission between nerve cells
- Laboratory tested & pure
- 100% vegan

POSSIBLE USES

- For the targeted intake of GABA (gamma-aminobutyric acid)

INGREDIENTS	PER DAILY DOSE (1 CAPSULE)	% NRV *
GABA (gamma-aminobutyric acid)	500 mg	-

* % of the reference quantity according to EU Regulation 1169/2011.

INGREDIENTS

Gamma-aminobutyric acid (GABA), hydroxypropyl methyl cellulose (capsule shell), pea fibre.

NOTES

The information provided here is not a statement on healing or a recommendation to self-medicate. Subject to print or typographical errors.

Food supplement: The recommended daily dosage should not be exceeded. Not a substitute for a balanced and varied diet and a healthy lifestyle.

Not an organic product according to VO (EU) 2018/848.

Suitable for diabetics.

Vcaps® Plus is a trademark of Lonza or its affiliates, registered in the USA.

STORAGE INSTRUCTIONS

Store in a dark, dry place at room temperature. Protect from heat.

Keep out of the reach of children.
