

GlanduPlex

Special preparation to support hormone and neurotransmitter synthesis in the adrenal glands and to maintain normal testosterone levels

PRODUCT DESCRIPTION

GlanduPlex from Biogena is a combination of selected micronutrients, with pantothenic acid to support the formation and metabolism of steroid hormones, vitamin D and some neurotransmitters.

Zinc also contributes to the maintenance of normal testosterone levels. Vitamin C and niacin support energy metabolism.

- With zinc
- With high-dose pantothenic acid & more

POSSIBLE USES

To support the hormone metabolism

For increased absorption of important vitamins and minerals
