

Maca Energy

High-quality plant substances for physical and mental vitality, energy & drive: maca, ginseng and guarana extract

PRODUCT DESCRIPTION

Plant-based active complex for physical and mental vitality

Plants used as sources of vitality and energy

Today, time and rest have become a precious commodity in our society. If everything takes place even faster and occupational, familial and psychological stresses become a part of life, most of us no longer have the necessary time and rest periods. This results in stress and hecticness. Many cultures traditionally use specific plants and their extracts to support the physical and mental vitality in a targeted manner. The effect of plant-based extracts from the maca bulb, ginseng root and guarana plant is scientifically well documented.

Biogena Maca Energy: Vitality and performance for man and woman

Biogena Maca Energy contains standardised plant extracts from maca, ginseng root and guarana. The maca extract contained supports the physical and mental performance, whereas the extracts from ginseng and guarana help maintain the physical and psychological vitality. Contains natural caffeine.

Physiological importance of the vital substances contained:

- Maca supports physical and mental performance
- Ginseng and guarana reduce fatigue and contribute to vigilance and cognitive performance
- Contains 48 mg natural caffeine from guarana per daily dose
- Plant extracts standardized
- With maca from MacaPure® and MacaTonic™
- Nutritive support for resilience

POSSIBLE USES

- To provide nutritional support for resistance towards stress
- To give men and women more energy and drive
