Vitamin D3 drops

Your sunshine vitamin, now in drops: 1000 I.E. of vitamin D per drop, dissolved in high-quality unflower oil for optimal absorption in your body.

PRODUCT DESCRIPTION

Vitamin D is your personal sunshine for well-being – supporting your immune system. There are plenty of vitamin D supplements out there – unfortunately, many are made with low-quality carrier oils like palm oil and unnecessary fillers. We do things differently: our vitamin D3 drops contain only high-quality ingredients like cholecalciferol and sunflower oil – nothing else.

- Cleverly paired with premium sunflower oil – to ensure your body can absorb this fat-soluble vitamin to the fullest.
- 100% FREE from palm oil.
- Vitamin D with cholecalciferol (Vitamin D3).
- Pleasantly neutral taste.
- Just one drop delivers the recommended daily dose of 25 µg (1000 I.E.).

POSSIBLE USES

- For your bones*
- Helps your body absorb calcium optimally, maintaining normal calcium levels in the blood.*
- Supports your immune system, so you feel well-protected all around.*
- Contributes to maintaining normal muscle function* – for flexibility and energy in everyday life.

Health Claims:

- Vitamin D contributes to the normal absorption/utilization of calcium and phosphorus.
- *Contributes to normal calcium levels in the blood.
- *Contributes to the maintenance of normal bones and teeth.
- Plays a role in cell division.
- *Contributes to maintaining normal muscle function.
- *Contributes to the normal function of the immune system.
