

Reishi & C

Tradition meets immune classic: Tested Reishi powder in premium quality, combined with non-acidic vitamin C

PRODUCT DESCRIPTION

Medicinal mushroom capsules with vitamin C to support the immune system

The immune system – guardian of the body

The immune system of the body is a highly complex defence system that protects our body against external pathogens. A balanced diet, plenty of outdoor exercise and a balanced psyche are essential prerequisites for an effective immune response. However, the body often needs additional external aid. In this case, the regular intake of selected micronutrients can help support the endogenous immune defences.

BIOGENA Reishi & C: To support the immune system

Reishi & C from BIOGENA contains the immunoactive classic vitamin C, in combination with high-quality tested reishi powder.

Reishi – a traditional medicinal mushroom from China

Reishi (*Ganoderma lucidum*) is a medicinal mushroom that is known as the “mushroom of immortality” in China where it is traditionally used. Modern methods of standardisation enable the targeted use of the mushroom extract in capsule form.

Physiological importance of the vital substances contained:

- Reishi is rich in valuable beta-glucans
- Vitamin C supports the normal functioning of the immune system
- The water-soluble vitamin helps maintain vitality in stressful situations by reducing fatigue
- Reishi powder in tested premium quality
- Use of the whole mushroom fruiting body = provides the entire mushroom spectrum
- Dried at low temperatures
- Combined with the immune classic vitamin C

POSSIBLE USES

- to support the body's own immune defences
- helpful during the wet and cold season
