SKIN BIOTIC+

High-quality formula with gut bacteria – with zinc and copper to support your skin – for an even complexion

PRODUCT DESCRIPTION

Microbiome & skin in balance – a powerful duo for your well-being

This innovative formula contains high-quality intestinal bacteria (lacto- & bifidobacteria) for a balanced microbiome and dietary fibres that nourish the intestinal bacteria.

CERAMOSIDES™ with phytoceramides provide a moisturising care inspired by natural skin lipids.

SkinBiotic+ is given the finishing touch thanks to **zinc**, which helps protect cells from oxidative stress, and **copper**, which contributes to normal skin pigmentation.

- Gut-skin axis: Zinc & copper for your skin* – combined with a microbiome complex
- Lacto- & bifidobacteria: active intestinal bacteria to supplement the microbiome
- Well-aging: CERAMOSIDES™ with phytoceramides – for your conscious beauty routine
- Food for good bacteria: prebiotic plant fibres (Fibregum™) nourish your microbiome
- Cell protection: zinc & copper protect your cells from oxidative stress*
- Scientifically proven

POSSIBLE USES

For your daily beauty routine with a focus on gut & skin

For targeted supplementation with selected bacterial cultures

For conscious gut flora care

Support with skin-related nutrients such as zinc and copper

*Zinc:

- Helps maintain normal skin.
- Plays a role in the process of cell division.
- Helps protect cells from oxidative stress.

*Copper:

- Contributes to normal skin pigmentation
- Helps to maintain normal connective tissue
